12 COPY-PASTE PROMPTS FOR VACATION RENTAL OWNERS

The Island Host AI Prompt Kit

A generic AI prompt doesn't know that Airbnb's app cuts your description off after 295 characters, or that VRBO won't let you charge a fee that only appears in your description. These 12 do.

AIRBNB · VRBO · MICAZU · ALGORITHM TIPS

START HERE

Your Property Fact Sheet

Fill this in once. Every prompt in this kit asks for the same basic details. Having them written down here saves you time and gets you better results.

HOW IT WORKS: Fill this in once, here, at the start. Property name, island, type and your Dutch and Spanish tone update automatically in every prompt below as you fill them in, no retyping later. Everything else on this page (bedrooms, features, guest profile) gets bundled into one paste-ready summary by the button at the bottom, for the "power user" workflow on the next page. You never fill in the same thing twice. Managing more than one property? Print or duplicate this page per property, this kit is built for hosts with up to 3 properties.

Your property

PROPERTY NAME

e.g. Villa Flamingo

ISLAND

◯ Aruba ◯ Bonaire ◯ Curaçao

How to use this kit

> *I rent a villa on Curaçao myself. I got tired of staring at the same blank description field every other host stares at, so I built the prompts I wished existed instead.*

1. **Fill in your Fact Sheet first**

   Page 2 is your property reference page. Fill it in once. Every prompt pulls from the same details so you stop re-typing the same information.

2. **Click "Copy prompt"**

   Every prompt has a copy button in the top right corner. One click copies the full prompt to your clipboard. No selecting, no dragging.

3. **Paste into ChatGPT or Claude**

   Go to chatgpt.com or claude.ai. Paste the prompt. Replace every pink [PLACEHOLDER] with your own details from the Fact Sheet. Press enter. This kit is built for the version you're already paying for: free tiers can drift past the character limits or miss the nuance, paid tiers don't.

4. **Refine in the same conversation**

   Not quite right? Type "make it shorter", "add more warmth" or "try a different opening." You can keep refining without copying the prompt again.

4 PRO TIPS

INSIDER MOVE:

after a result you like, type "now give me 2 more variations with a different opening line." Instant A/B options, no extra work.

POWER USER WORKFLOW:

paste your "Copy my property facts" summary as the very first message in a new ChatGPT or Claude conversation, then use all 12 prompts in that same conversation. The AI already knows everything, no placeholders to fill in.

ISLAND CONTEXT IS AUTOMATIC:

the island you pick on the Fact Sheet is already built into every platform prompt (Airbnb, VRBO, Micazu). Nothing to paste manually.

TIME YOUR HURRICANE-FREE ANGLE:

Aruba, Bonaire and Curaçao sit outside the main hurricane belt, and plenty of North American guests don't know that. The Atlantic hurricane season runs from June through November. Push that fact in your teaser and social posts during those months specifically, not year-round.

Listing Descriptions

04
More Bookings & Reputation

Airbnb, VRBO, Micazu + universal tools

Audit, amenities, photos, reviews

Set expectations

What this is not

- No automatic connection to Airbnb, VRBO or Booking.com. You paste the output into your own listing yourself.
- No promise about how many bookings this gets you. That depends on your property, photos and market, not a prompt.
- No Booking.com prompt. Booking.com writes your listing description for you from your structured property data. You can't paste custom text there the way you can on Airbnb or VRBO.
- No Social Media Kit included, that's coming later as a separate product.

Platform 01

Airbnb

The largest vacation rental platform globally. Your listing description and Your Space field are each limited to 500 characters: roughly 60-80 words. In the app, only the first 295 characters show before "Show more." Write for that first screen. Airbnb rewards active listings: fast response rate, regular updates and a completed profile all lift your ranking. Turn off auto-translation and set your own text per language to reach Dutch, American, Canadian and Colombian guests in their own language. Colombia is now Curaçao's #3 source market, ahead of Canada (Curaçao Tourist Board, January to September 2026).

- 01: Airbnb Listing Description + Title

01 Airbnb Listing Description

WHAT GENERIC AI DOESN'T KNOW

Airbnb has an automatic translation feature, but it's generic and you have zero control over the result. Turn it off. Instead: go to Airbnb > Listings > select your listing > Listing details > Description > Translated descriptions, click 'Add a translation', and paste each output into the right language field. Dutch guests then see your Dutch version. American and Canadian guests see your English version. Colombian and other Spanish-speaking guests see your Spanish version. All of them run on the same listing at the same time. This is what these outputs are for: copy each one separately and paste it into the right language field yourself. The "Your Space" / "Je accommodatie" field works the same way. Outputs 4, 5 and 7 give you all three languages for that field too. Most hosts never do this. That's why their listings read like a machine wrote them.

OUTPUT 1: DUTCH MARKET (IN DUTCH) → UPLOAD AS DUTCH TRANSLATION

Eilandcontext: *[SELECTEER EILAND OP DE FACT SHEET HIERBOVEN]*

Schrijf een Airbnb-advertentiebeschrijving voor mijn vakantiewoning voor de Nederlandse markt. Max 500 tekens. Schrijf in het Nederlands. Geen clichés: geen "paradijs," "parel," "home away from home" of "adembenemend."

Aanspreekvorm: *[JE/JIJ (INFORMEEL, MEESTE VERHUURDERS) OF U (FORMEEL, BIJV. VOOR LUXE OF ZAKELIJK PUBLIEK)]*

500 tekens is weinig. Gebruik ze goed. Begin direct met het sterkste punt van de woning, geen inleiding. Nederlandse lezers prikken door een template heen: schrijf wat concreet en oprecht is aan deze woning. Geen superlatieven. Eindig met 1 regel die de gast laat klikken. Verwerk de eilandnaam en 1-2 topkenmerken als zoektermen. Schrijf eerst voor de gast en als tweede voor het algoritme.

OUTPUT 2: AMERICAN MARKET (IN ENGLISH) → UPLOAD AS ENGLISH (US) TRANSLATION

Island context: *[SELECT YOUR ISLAND ON THE FACT SHEET ABOVE]*

Write an Airbnb listing description for my property for the American market. Max 500 characters. Write in English. No clichés: no "paradise," "gem," "home away from home," or "stunning."

500 characters is tight. Lead with your single strongest feature, no warm-up. Use second person ("you'll wake up to..."). American guests respond to experience-driven copy: make them feel the island in one sentence, then anchor it to something specific about this property. Every word must earn its place. End with one line that makes them want to see the photos. Include the island name and 1-2 top amenities as natural search terms.

OUTPUT 3: CANADIAN MARKET (IN ENGLISH) → UPLOAD AS ENGLISH (CANADA) TRANSLATION

Island context: [SELECT YOUR ISLAND ON THE FACT SHEET ABOVE]

Write an Airbnb listing description for my property for the Canadian market. Max 500 characters. Write in English. No clichés: no "paradise," "gem," "home away from home," or "stunning."

500 characters is tight. Canadian guests are escaping real winters: lead with the contrast between -20°C back home and what it feels like to arrive here. That contrast is a strong booking trigger for this market. Then anchor it with one specific detail about this property. End with a line that makes booking feel like the obvious decision before winter hits. Include the island name and 1-2 top amenities as natural search terms.

OUTPUT 4: YOUR SPACE IN ENGLISH → UPLOAD AS ENGLISH TRANSLATION

Island context: [SELECT YOUR ISLAND ON THE FACT SHEET ABOVE]

Write the "Your Space" section for my Airbnb listing. This is a separate field specifically about the physical property. Max 500 characters. Write in English.

Don't try to describe every room. Pick the 2-3 spaces guests will actually remember: most likely the outdoor area, the primary bedroom and one other standout feature. Be specific. "A private pool surrounded by palms with a west-facing sunset view" beats "a lovely outdoor area." Warm and honest tone. No filler sentences.

OUTPUT 5: JE ACCOMMODATIE IN HET NEDERLANDS → UPLOAD AS DUTCH TRANSLATION

Eilandcontext: [SELECTEER EILAND OP DE FACT SHEET HIERBOVEN]

Schrijf de "Je accommodatie" sectie voor mijn Airbnb listing. Dit is een apart veld specifiek over de fysieke woning. Max 500 tekens. Schrijf in het Nederlands.

Aanspreekvorm: [JE/JIJ (INFORMEEL) OF U (FORMEEL)]

Beschrijf niet elke ruimte: kies de 2-3 plekken die een gast zich herinnert. Waarschijnlijk de buitenruimte, de slaapkamer en één ander hoogtepunt. Wees concreet: "een privézwembad met uitzicht op zee en westkant voor de zonsondergang" slaat beter aan dan "een mooie buitenruimte." Warme en eerlijke toon, geen vulzinnen.

OUTPUT 6: COLOMBIAN / LATIN AMERICAN MARKET (IN SPANISH) → UPLOAD AS SPANISH TRANSLATION

Island context: [SELECT YOUR ISLAND ON THE FACT SHEET ABOVE]

Write an Airbnb listing description for my property for Colombian and other Latin American guests. Max 500 characters. Write in Latin American Spanish, not Spain Spanish: no "vosotros," no Spain-only words like "piso" or "coger." No clichés: no "paraíso," "joya," "de ensueño" or "como en casa."

Form of address: [USTED OR TÚ]
Colombians use "usted" in warm, friendly situations too, not only formal ones. If I picked usted, keep the tone warm: usted is not distance here.

500 characters is tight. Colombian guests have Caribbean beaches at home, in Cartagena and Santa Marta, so "sun and beach" alone is no reason to fly here. Lead with what this island and this property give them that home doesn't. Colombian guests on Curaçao stayed 5.4 nights on average (September 2026): write toward a week-long stay, not a quick weekend. End with one line that makes them want to see the photos. Include the island name and 1-2 top amenities as natural search terms in Spanish (e.g. piscina privada, vista al mar).

OUTPUT 7: YOUR SPACE IN SPANISH → UPLOAD AS SPANISH TRANSLATION

Island context: [SELECT YOUR ISLAND ON THE FACT SHEET ABOVE]

Write the "Your Space" section for my Airbnb listing, for the Spanish translation. This is a separate field specifically about the physical property. Max 500 characters. Write in Latin American Spanish, not Spain Spanish.

Form of address: [USTED OR TÚ]

Don't try to describe every room. Pick the 2-3 spaces guests will actually remember: most likely the outdoor area, the primary bedroom and one other standout feature. Be specific. "Una piscina privada con vista al atardecer" beats "un espacio exterior agradable." Warm and honest tone. No filler sentences.

OUTPUT 8: AIRBNB TITLE (MAX 50 CHARACTERS)

Write an optimized Airbnb listing title for my property on [ISLAND]. Max 50 characters. Lead with the most searchable feature, not the property name. Include the property name only if space allows. Guests filter by keywords like pool, ocean view, beachfront and walk to beach. If the keyword is not in your title, the listing does not show up in filtered searches.

Give 2 variations. For each, state in one sentence which keyword you prioritized and why.

Platform 02

VRBO

VRBO reaches primarily North American families and groups looking for full-home rentals. The platform gives you up to 10,000 characters for your description, far more than Airbnb. Unlike Airbnb, VRBO shows one listing to all guests regardless of language, so choose the version that fits your primary audience.

- 02: VRBO Description + Title

02 VRBO Description

WHAT GENERIC AI DOESN'T KNOW

VRBO allows up to 10,000 characters, far more room than Airbnb. Use it to be thorough, not to pad. Unlike Airbnb, VRBO does not support separate descriptions per language, meaning your listing shows the same text to everyone. Choose the version that matches your primary audience: Output 1 (Dutch) if most of your guests are European, Output 2 (English) if you primarily target American or Canadian guests. Important: every mandatory fee (cleaning, resort, admin, pet fee) belongs in your VRBO pricing settings. A mandatory fee that only appears in your description can't be charged, and breaking that rule can get your account suspended (VRBO Host Fees & Taxes Transparency Policy). Optional extras work the other way round: describe those in the description, with the amount and when they apply.

OUTPUT 1: DUTCH / EUROPEAN MARKET (IN DUTCH)

Island context: *[SELECT YOUR ISLAND ON THE FACT SHEET ABOVE]*

You are a vacation home copywriter specializing in Caribbean vacation rentals. Write a VRBO listing description for my property for the Dutch and European market. Target 600-800 words. Write in Dutch (Nederlands). No clichés: no "paradijs," "parel," "adembenemend" or "home away from home."

Aanspreekvorm: *[JE/JIJ (INFORMEEL) OF U (FORMEEL)]*

Nederlandse lezers vergelijken listings zorgvuldig en prikken meteen door een template heen. Begin met wat specifiek en oprecht is aan deze woning. Benadruk waarde, praktische kwaliteiten en hoe een verblijf hier dag-tot-dag aanvoelt. Geen superlatieven. Geen inspirerende opening. Schrijf voor iemand die vandaag al twintig listings heeft bekeken en een reden zoekt om deze te vertrouwen. VRBO staat maximaal 10.000 tekens toe. Gebruik die ruimte om grondig te zijn en elke vraag te beantwoorden, niet om de tekst op te vullen.

Verwerk vanzelfsprekend als zoektermen in de tekst: de eilandnaam, het type woning en 1-2 topkenmerken (zoals privézwembad, zeezicht of strandzijde). Schrijf eerst voor de gast en als tweede voor het algoritme.

OUTPUT 2: NORTH AMERICAN MARKET (IN ENGLISH)

Island context: *[SELECT YOUR ISLAND ON THE FACT SHEET ABOVE]*

You are a vacation home copywriter specializing in Caribbean vacation rentals. Write a VRBO listing description for my property for the North American market. Target 600-800 words. Write in English. No clichés: no "paradise," "gem," "stunning" or "home away from home."

North American readers respond to aspirational, experience-driven copy. Open with a scene-setting sentence (morning coffee by the pool, sunset on the terrace). Use second person throughout: "you'll wake up to..." Include one paragraph on why this island is worth choosing over other Caribbean options. Close with what makes this specific home worth booking over every other option they've seen today. Aspirational but specific. Vague luxury language loses

them. VRBO allows up to 10,000 characters. Use the space to build a complete picture, not just list features.

Naturally include these as search terms: island name, property type, and 1-2 top amenities (e.g. private pool, ocean view, beachfront). Write for the guest first, the algorithm second.

OUTPUT 3: VRBO TITLE (MAX 80 CHARACTERS)

Write an optimized VRBO listing title for my property on **[ISLAND]**. Max 80 characters. Lead with the top searchable feature, then add a second benefit or the location. VRBO gives you more room than Airbnb: use it.

Give 2 variations. For each, state in one sentence which keyword you prioritized and why.

Platform 03

Micazu

Micazu is a Dutch vacation rental platform with strong coverage on Curaçao, Aruba and Bonaire. Almost all guests are Dutch-speaking. They compare listings carefully, read descriptions in full and want to feel they can trust the host before they book. Maximum 5,000 characters. Always write in Dutch. A sharp 3,000-character description converts better than a padded 5,000-character one.

- 03: Micazu Description (in Dutch)

03 Micazu Description (in Dutch)

WHAT GENERIC AI DOESN'T KNOW

Micazu staat maximaal 5000 tekens toe voor de beschrijving. Dat is ruimer dan Airbnb maar gebruik die ruimte niet om meer te zeggen, gebruik hem om beter te zeggen. Nederlandse gasten waarderen eerlijkheid en warmte boven perfecte marketing. Ze willen weten of het er gezellig is, of de woning klopt en of jij als host te vertrouwen bent.

Eilandcontext: *[SELECTEER EILAND OP DE FACT SHEET HIERBOVEN]*

Jij bent een copywriter die gespecialiseerd is in de Nederlandse vakantieverhuurmarkt. Je hebt alle basisgegevens van mijn woning al. Schrijf nu een Micazu-beschrijving.

Nog één aanvullende vraag voordat je begint: Wat maakt deze woning anders dan alle andere opties op dit eiland?
[WEES SPECIFIEK: HET ENE ELEMENT WAARMEE JIJ JE ONDERSCHEIDT VAN ANDERE VERHUURDERS OP HET EILAND]

Aanspreekvorm: *[JE/JIJ (INFORMEEL, MEEST GEBRUIKT) OF U (FORMEEL, BIJV. VOOR LUXE OF ZAKELIJK PUBLIEK)]*

Schrijf in het Nederlands. Toon: warm, eerlijk en persoonlijk, met een vleugje avontuur. Klinkt als een host die je kennis laat maken met het eiland, niet als een verhuurbureau.

Structuur:
1. Opening die de sfeer van de woning neerzet (geen vragen, geen superlatieven)
2. De woning zelf (specifieke hoogtepunten, geen kamer-voor-kamer-rondleiding)
3. De buitenruimte (als die er is)
4. De locatie en wat er op loopafstand is
5. Korte afsluiting die uitnodigt zonder te pushen

Vermeld eilandspecifieke elementen die voor Nederlanders relevant zijn, zoals het weer, Nederlandstalige omgeving, nabijheid van populaire stranden of activiteiten. Alleen wat daadwerkelijk van toepassing is op deze woning. Micazu staat max 5000 tekens toe. Gebruik die ruimte goed maar vul ze niet op: een scherpe tekst van 3000 tekens converteert beter dan een opgeblazen tekst van 5000.

Verwerk vanzelfsprekend als zoektermen in de tekst: de eilandnaam, het type woning en de 1-2 kenmerken die jou onderscheiden. Schrijf eerst voor de gast en als tweede voor het algoritme.

All Platforms

Universal Listing Tools

These prompts work across Airbnb, VRBO, Micazu and your own direct booking website. Use them to write a teaser, rewrite an existing description and define what makes your property genuinely stand out from every other rental on the island.

- 04: Short Teaser Description
- 05: Rewrite Existing Description
- 06: Unique Selling Points
- 07: Pool and Outdoor Space
- 08: Location Description

04 Short Teaser Description

WHAT GENERIC AI DOESN'T KNOW

These 2 sentences work harder than most hosts realize. They appear in your Airbnb link preview when you share on WhatsApp, in your direct booking website header, in social media bios and in Google snippet previews. Guests decide in seconds whether to click through. A sentence that leads with a feeling ("Steps from the water, shaded by palms") usually beats one that leads with features ("3 bedrooms, private pool"). This prompt gives you 3 angles so you can pick the one that hits.

Write 3 versions of a 2-sentence teaser description for my vacation rental. You already have my property details. Each version takes a completely different angle. Sensory language only. No clichés. No questions. No exclamation marks. No "paradise."

To help you nail the tone, tell me:
Strongest feature: [E.G. PRIVATE INFINITY POOL FACING WEST FOR SUNSETS]
Second feature: [E.G. 4-MINUTE WALK TO KLEIN KNIP BEACH]
Vibe: [E.G. RELAXED AND PRIVATE / FAMILY-FRIENDLY / ROMANTIC / DIGITAL NOMAD]

Version A: lead with the feeling of arriving here for the first time
Version B: lead with the location and what surrounds the property
Version C: lead with the specific feature that no other rental nearby can match

After the 3 versions, tell me in one sentence which one you'd recommend for an Airbnb link preview and why.

05 Rewrite Existing Description

WHAT GENERIC AI DOESN'T KNOW

A listing description written 18 months ago is probably costing you bookings. Writing styles shift, platforms change how they display text, and your own understanding of your guests deepens over time. This rewrite prompt removes everything that could describe any property anywhere.

You are a senior hospitality copywriter. Rewrite my vacation rental listing description. Remove every cliché, vague adjective and generic statement that could describe any property anywhere in the world. Every sentence must be specific to this property on **[ISLAND]**.

My current description:
[PASTE YOUR CURRENT DESCRIPTION HERE]

Things I should have included but didn't:
[ADD DETAILS: SPECIFIC VIEWS, LOCAL TOUCHES, THINGS GUESTS ALWAYS COMMENT ON, UNIQUE FEATURES YOU TAKE FOR GRANTED]

Platform this is for: **[AIRBNB / VRBO / MICAZU / DIRECT WEBSITE]**

Rules for the rewrite:
- Show, don't tell. Replace "beautiful view" with what makes it beautiful.
- Lead with the strongest sentence. Cut the slow warm-up.
- Keep it the same length or shorter.
- End with a line that makes the reader want to look at the photos next.

After the rewrite, list the 3 specific changes you made and why each one improves conversion.

06 Unique Selling Points

WHAT GENERIC AI DOESN'T KNOW

Most listings lean on the same 6 words: pool, view, beach, clean, spacious, well-equipped. This prompt forces a harder question: what can *only you* say? The test is blunt: if another host on the island could say the exact same thing, it doesn't count. What usually passes are the things the host takes for granted: the outdoor shower that faces the sea, the breadfruit tree guests always photograph, the way morning light hits the terrace. Those details convert. The generic ones don't.

I need help identifying and writing the unique selling points of my vacation rental. You already have my property details. Be brutally honest: if it isn't actually unique, cut it.

Three things I want you to factor in that aren't in my property info:
- Something that surprises guests when they arrive: **[THE THING PHOTOS DON'T CAPTURE]**
- Price compared to similar properties here: **[CHEAPER / SIMILAR / MORE EXPENSIVE]**
- Who this property is NOT right for: **[BE HONEST]**

Deliver:
1. Five bullet points, max 15 words each. Each one must survive this test: "Could another rental on this island say the exact same thing?" If yes, rewrite it.
2. One headline sentence (max 12 words) that captures the total appeal of this property.
3. One honest sentence about who this property is NOT for. (This increases trust and reduces bad-fit bookings.)

07 Pool and Outdoor Space

WHAT GENERIC AI DOESN'T KNOW

On a tropical island, the outdoor space is often what guests picture first. Yet many descriptions spend half their words on the living room. If your property has a private pool or terrace, this paragraph should appear early in your listing, not at the end.

Write a vivid, sensory paragraph (100-150 words) describing the outdoor space of my vacation rental on **[ISLAND]**. Make the reader feel like they're already there. No clichés. Specific details only.

What my outdoor space includes:
[LIST EVERYTHING: POOL, SUN LOUNGERS, OUTDOOR SHOWER, BBQ, TERRACE, GARDEN, SEA VIEW, PALM TREES, HAMMOCK, OUTDOOR DINING TABLE]

Orientation: **[FACES EAST/WEST/SOUTH / MORNING SUN / AFTERNOON SHADE / SUNSET VIEW]**
Size and feel: **[COMPACT AND INTIMATE / SPACIOUS / SPRAWLING / PRIVATE AND HIDDEN / OPEN AND SOCIAL]**
The detail guests always comment on: **[WHAT DO PEOPLE ALWAYS MENTION ABOUT THE OUTDOOR SPACE?]**

Write in second person ("you"). Open with the exact moment the reader steps outside. End with the thing they will not want to leave. Do not describe the pool dimensions. Describe the feeling of being in it.

08 Location Description

WHAT GENERIC AI DOESN'T KNOW

Saying "5 minutes from the beach" is less persuasive than walking the reader through the neighborhood. Distance in minutes is data. A sense of place is desire. This prompt makes your location feel like a character, not a coordinate.

Write a location section for my vacation rental listing that makes **[NEIGHBORHOOD]** on **[ISLAND]** feel like a place worth choosing, not just a geographic fact.

Location details:
- Neighborhood name and character: **[E.G. "JAN THIEL, QUIET AND RESIDENTIAL WITH A SMALL MARINA NEARBY"]**
- What you can reach on foot: **[BEACH / RESTAURANTS / SUPERMARKET / TOWN / LIST THEM]**
- What's within 10 minutes by car: **[LIST 3–4 PLACES WITH WHAT MAKES EACH WORTH VISITING]**
- The local spot most tourists never find: **[YOUR ACTUAL INSIDER RECOMMENDATION]**
- Who loves this location most: **[COUPLES / FAMILIES / DIVERS / REMOTE WORKERS / ETC.]**

Write 2 paragraphs. First: the feel, rhythm and personality of this neighborhood. Make it specific to **[ISLAND]**. Second: practical proximity with warmth. Never list distances like a real estate brochure. Describe what the walk or drive actually feels like.

Category 02

More Bookings & Reputation

Great listing copy is the start, not the finish. The platforms reward hosts who understand how the algorithm works: response speed, listing completeness, photo count, amenities, review velocity, Instant Book and Superhost status. These 4 prompts help you work the algorithm and protect your reputation: audit your listing against every known ranking factor, build a complete amenities list, brief your photos for maximum conversion, and respond to reviews the way future guests trust.

- 09: Airbnb Algorithm Audit
- 10: Amenities Maximizer
- 11: Listing Photo Brief
- 12: Review Response Writer

09 Airbnb Algorithm Audit

What generic AI doesn't know

Airbnb's search ranking depends on far more than your listing text. Response rate, photo quantity, amenities listed, Instant Book status, review velocity and calendar activity all feed the algorithm directly. None of that is visible on your public listing page, not even to AI. Pull these 5 numbers from your Airbnb host dashboard first (Listings > your listing > Performance), the audit is only as good as what you give it.

You are an Airbnb optimization expert. Audit my listing against Airbnb's known ranking factors, using the details below. These come from my host dashboard, not the public listing page, so use exactly what I give you instead of guessing.

Instant Book: *[ENABLED / NOT ENABLED]*
Typical response time: *[WITHIN AN HOUR / A FEW HOURS / A DAY / SLOWER]*
Calendar updates: *[DAILY / WEEKLY / RARELY]*
Photos uploaded: *[NUMBER]*
Reviews: *[RATING AND COUNT]*

Evaluate each factor as strong / needs work, based on the numbers above and my property info:
1. Listing completeness: every field filled in?
2. Photos: enough to show every room and outdoor space, with a strong first photo?
3. Amenities: likely amenities I have but haven't listed?
4. Instant Book
5. Response rate and speed
6. Review count and recency
7. Pricing: competitive for my market and dates?
8. Calendar activity

After the audit, give me a numbered action list ranked by expected impact on bookings. Be specific. No vague advice.

10 Amenities Maximizer

WHAT GENERIC AI DOESN'T KNOW

Every amenity you have but haven't listed makes you invisible in filtered searches. A guest filtering for 'pool + beachfront + high chair + AC' only sees hosts who have checked all four. If you have it, list it.

Based on my property details, help me build a complete amenities list.

Step 1: Generate a comprehensive amenities list based on everything I've described.

Step 2: Flag the amenities most commonly overlooked by ABC island hosts, including: beach chairs, beach umbrella, snorkeling gear, outdoor shower, portable fan, iron and board, beach towels, hair dryer, portable crib, high chair, BBQ or grill, outdoor dining table, sun loungers, smart TV, streaming services, coffee grinder, water purifier, ceiling fans, blackout curtains, luggage storage, first aid kit.

For each overlooked item: ask me if I have it. After I confirm, add it to my list.

Deliver the final formatted amenities list ready to copy into my platform settings.

11 Listing Photo Brief

WHAT GENERIC AI DOESN'T KNOW

Your first photo is your thumbnail in search results, so it decides whether a guest clicks at all. Airbnb lets you upload up to 100 photos and add a caption to each one, visible when guests click through the gallery. Captions are easy to skip, but they're free copy space directly in front of a guest who is already considering your property.

Create a photo shoot brief for my vacation rental on **[ISLAND]**. A photographer or I should be able to follow this as a shot list.

Property: **[NAME]** / Type: **[VILLA / APARTMENT / GUESTHOUSE / STUDIO / B+B]**
Stand-out feature: **[THE ONE THING THAT LOOKS BEST IN A PHOTO]**

Deliver:
1. The hero shot (photo 1): what to show, time of day, angle, and why this works as my search result thumbnail
2. Photo sequence 1-20: each room or outdoor space, in recommended upload order, with notes on framing and best time of day to shoot
3. Three shots most hosts forget but guests always look for
4. Scene-setting shots that sell the island experience, not just the interior
5. Airbnb photo captions: write one caption (max 20 words) for the 6 most important photos. Each caption adds one specific detail the photo cannot show on its own.

End with: 3 things to avoid in vacation rental photography on the ABC islands.

12 Review Response Writer

WHAT GENERIC AI DOESN'T KNOW

A public review response is permanent, and every future guest who reads that review sees how you handled it. Apologizing for something that wasn't your fault reads as an admission of guilt, even when you did nothing wrong. Your response is the part you control.

You are a hospitality reputation manager. Write a public response to this guest review for my vacation rental on **[ISLAND]**. Every future guest who reads this review will also see my response, so it matters as much as the review itself.

Review type: **[MINOR COMPLAINT / NEUTRAL / FEELS UNFAIR / LEGITIMATE ISSUE]**

What the guest said: **[PASTE THE REVIEW OR COMPLAINT]**

What actually happened, my side: **[YOUR CONTEXT, BE HONEST]**

Rules:
- Never apologize for something that wasn't my fault. That reads as guilt to future readers, even when I did nothing wrong.
- Address the specific point the guest raised. No generic template response.
- If a factual claim in the review is inaccurate, correct it politely and specifically, without arguing.
- Warm but brief: one short paragraph, max 80 words.
- End forward-looking, not defensive.
- Write the response in the language the guest wrote the review in. A Spanish review answered in English tells every Spanish-speaking reader after them that this host doesn't speak to them.
- Never use "we're sorry you feel that way." It is the most recognizably dismissive line in hospitality, and guests spot it instantly.

Preview: Social Media Kit

Turn a cancellation into your next booking.

Two prompts. Two markets. One empty slot filled. Dutch guests book on practical certainty. American guests book on a feeling. The Social Media Kit has both.

NL **Post: Annulering of Rustige Periode**

Schrijf een Instagram- en Facebookpost voor mijn vakantieverhuur op *[EILAND]*.

Situatie: *[ANNULERING: ER ZIJN DATUMS VRIJGEKOMEN / RUSTIGE PERIODE: IK HEB BESCHIKBAARHEID DIE IK WIL VULLEN]*
Beschikbare datums: *[DATUMS]*
Naam van de woning: *[NAAM]* / Eiland: *[EILAND]*
Wat gasten hier altijd het meest op reageren (beschrijf wat de gast er concreet doet, niet alleen wat het is): *[VERPLICHT: BIJV. "EIGEN ZWEMBAD, GEEN GEDEELD BAD, KINDEREN CLAIMEN HET DE HELE DAG" OF "BUITENKEUKEN, ELKE AVOND BUITEN ETEN ZONDER RESTAURANT"]*
Waarom zijn juist deze datums de moeite waard: *[VERPLICHT: EEN ECHTE REDEN. BIJV. LOKAAL FESTIVAL, BESTE DUIKWEER, RUSTIGSTE WEEK VAN HET JAAR, CARNAVAL]*

Regels:
- De eerste zin beschrijft iets wat de gast hier concreet doet. Niet over het eiland, niet over het weer.
- Verwerk praktische zekerheid vanzelfsprekend: privacy, hoeveel personen, strand op afstand, parkeergelegenheid.
- Nooit "annulering," "last-minute," "luxe," "paradijs" of "adembenemend" gebruiken.
- Eindig met één CTA: DM voor info, link in bio of directe boekingslink.
- 5-7 regels. 3-5 gerichte hashtags. Schrijf in het Nederlands.

EN

Cancellation or Slow Period Post

Write an Instagram and Facebook post for my vacation rental on *[ISLAND]*.

Situation: *[CANCELLATION: DATES JUST OPENED UP / SLOW PERIOD: I HAVE AVAILABILITY I WANT TO FILL]*
Available dates: *[DATES]*
Property: *[NAME]* / Island: *[ARUBA / BONAIRE / CURAÇAO]*
The one thing guests always react to most (what the guest actually does there, not just what it is): *[REQUIRED: E.G. "PRIVATE POOL, NO SHARING, KIDS CLAIM IT ALL DAY" / "OUTDOOR KITCHEN, FAMILY DINNERS OUTSIDE EVERY NIGHT" / "DIRECT BEACH ACCESS, NO CAR NEEDED"]*
What makes these specific dates worth booking: *[REQUIRED: A REAL REASON. E.G. CARNIVAL SEASON, PEAK DIVING CONDITIONS, QUIETEST WEEK OF THE YEAR, LOCAL FESTIVAL, BEST SUNSET MONTH]*

Rules:
- The first sentence is something the guest pictures themselves doing at THIS property. Not the island. Not the season.
- Translate every feature into what the guest does or feels there. Not "private pool", but what they actually do at that pool.
- Never use "cancellation," "last-minute," "stunning," "escape," "comfortable," or "paradise."
- End with one clear CTA: DM for info, link in bio, or direct booking link.
- 5-7 lines. 3-5 targeted hashtags. No hashtag wall. Write in English.

The Island Host
Social Media Kit
Prompts for Instagram, TikTok, Facebook and Reels. Built for ABC island hosts who want to show up on social without spending hours on it.
